## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:.

The request filed on May 17, 2004 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/180,374 is acceptable and a CPA has been established. An action on the CPA follows.

The claims are free of the prior art of record as a result of applicants' amendment to the claims. There is no suggestion in the prior art of an organogel including a liquid fatty component and a sterol or sterol ester combination that has a stevens value that is like the stevens value of the claims. Sasson and Lansburghen does not really suggest the use of any liquid component in the margarine prepared in example 6. also there is no suggestion of the inclusion of an organogel that includes a liquid fat component. The remaining references, that were previously relied upon, are directed more to the properties of the starting oil component and not to an organogel, like the one now set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
